TALASI TRU ORIGIN - OUR COMMITMENT TO JUSTICE, EQUITY, DIVERSITY AND INCLUSION.

At Talasi Tru Origin, we believe that discovering the Finest Things From The Origin begins with mutual respect between Talasi and our stakeholders, including farmers, and a shared responsibility to respect and protect the environment. We bring this belief to life by listening to one another, recognizing the value of each person's contribution, and removing barriers that prevent people from sharing in the opportunities we create. Through these relationships, our vision is to build shared prosperity where every person is treated with dignity, differences are valued, and everyone has a voice and fair opportunities to grow.

Guided by DISCOVER, our eight-point mission guide for honest products, local empowerment, and environmental care. We commit to advancing justice, equity, diversity and inclusion through our policies and everyday practices across our operations, our relationships with customers and suppliers, and the communities we serve. We will work to remove unfair barriers, prevent discrimination, and create opportunities for people from diverse backgrounds and abilities. We value farmers as partners, respect local knowledge, and strengthen participation through knowledge sharing and fair, transparent transactions. Through POSTALASI, our app that enables farmers to sell their harvest directly to Talasi without relying on irresponsible intermediaries, we support informed decision-making and accessible participation for farmers.

We will listen to those affected by our decisions and act on in-equity, with particular attention to people whose voices and opportunities are too often overlooked. Our Executives team is accountable for translating this commitment into meaningful action, so that Talasi's growth advances the dignity and prosperity of the people and origins that make it possible, while safeguarding the environment for future generations.
